English

Thank you for purchasing an AODELAN product.

AODELAN LS-1 is a small and super portable Set consisting of a Grid and Color Gels, its universal Band allows the Set to work with any on-camera flashes. The Magnetic Stackable System is adopted in LS-1, which makes the Grid and Color Gel can be easily attached to the flash head. Using LS-1 will increase the control of light and get creative with colored light.

Please read this user manual as well as the user manual provided with your flash which works with LS-1 before use.
